In the event of an emergency, patient information plays an important role in the ability of EMS to deliver the best care possible. Lincoln Rescue Service has developed PINK cards for patients, which can be handed to personnel in the event of an emergency.

The PINK Card will provide access to your basic medical information.

The information recorded on the cards include name, date of birth, medical history, daily medications, and allergies.

PINK cards are available in the Clerk's office located at Lincoln Town Hall, as well as the Lincoln Senior Center. You may also email Chief Thompson @ sthompson@lincolnri.org

They are a HOT item, so please be patient if we are waiting on the replenishing of our supply.
