Re: Rat control issues

Dear Resident:

The Town has received complaints in your area of rats. Unfortunately, this time of year rats will hunt for food and come out in the open. The Town of Lincoln has provided information on our website of how to control rats - like keeping trash cans sealed, picking up pet feces and controlling bird feeders. We have also provided a list of local exterminators which can provide you with information and extermination services.

Please go to www.lincolnri.org and click on "Departments" then "Zoning". Under the heading "Forms" you will see information on rat control. As residents of the Town of Lincoln, we all need to do our part to keep our properties clean to avoid any further rat issues. Thank you for your cooperation in this matter.

Sincerely,

Russell Hervieux
Zoning Official
